

Hydro-Excavation is the safe and productive, non-destructive, excavation method.

Pressurized water is used to break up and loosen the soil, while the high power vacuum is used to remove the soil without causing damage or disrupting underground utilities.

All of H2O Underpressure, Inc. employees are safety trained in the following:

- HAZMAT
- OSHA 10 Plus/OSHA 30
- Confined Space Rescue
- Lockout/Tagout
- Heat Stress
- Fall Protection
- CPR-First Aid
- Recovery Boilers
- Man Lift Licensed
- MSHA

We are a member of a certified drug analysis program administered by Affinity Health.

We strive to be safe and productive. Our customers will say so; just ask them!
